Extract from the Academy Financial Handbook (3.1.16):

3.1.17 The academy trust's register of interests **must** capture relevant business and pecuniary interests of members, trustees, local governors of academies within a multi-academy trust and senior employees, including:

- directorships, partnerships and employments with businesses that provide goods or services to the trust;
- trusteeships and governorships including at other educational institutions and charities irrespective of whether there is a trading relationship with the trust; and
- for each interest: the name of the business, the nature of the business, the nature of the interest, and the date the interest began.

3.1.18 Trusts should consider carefully whether to include the interests of other individuals in the register of interests. This may include other employees of the trust and close family members of individuals already on the register. Interests are not limited to the items in section 3.1.17 and trusts should consider whether other interests should be registered. If in doubt the presumption should be towards including an interest in the register. Boards of trustees should keep their register of interests up-to-date through regular review.

3.1.19 Trusts **must** publish on their websites relevant business and pecuniary interests of **trustees and members**. Trusts have discretion over the publication of interests of other individuals including parent, spouse, civil partner, cohabitee and child.
